

## Settling in

The Nursery team is committed to the smooth transition of the children and parents into the setting and making it a positive experience.

When a child has been booked into Nursery, arrangements will be made for the child to attend settling in sessions. We offer up to 5 hours free over a 2 week period however this can be extended if the child takes slightly longer to settle. This will be decided between the parent and the child's Room Leader.

We encourage parents to call us to check on their child's progress through the day. If a child becomes very distressed during the settling in period and staff cannot comfort the child we will call parents and suggest their child has a shorter session that day.

No child will be taken on an outing unless completely settled.
